

Blick 86 & 89 Time Recorders

For time recording and job costing

The Blick 86 & 89 Time Recorders are robust, cost effective and ideal time monitoring solutions for any size company. With an additional costing facility the Blick 86 and 89 assist in manual job costing calculations.

The Blick 86 & 89 Time Recorders provide you with:

Features

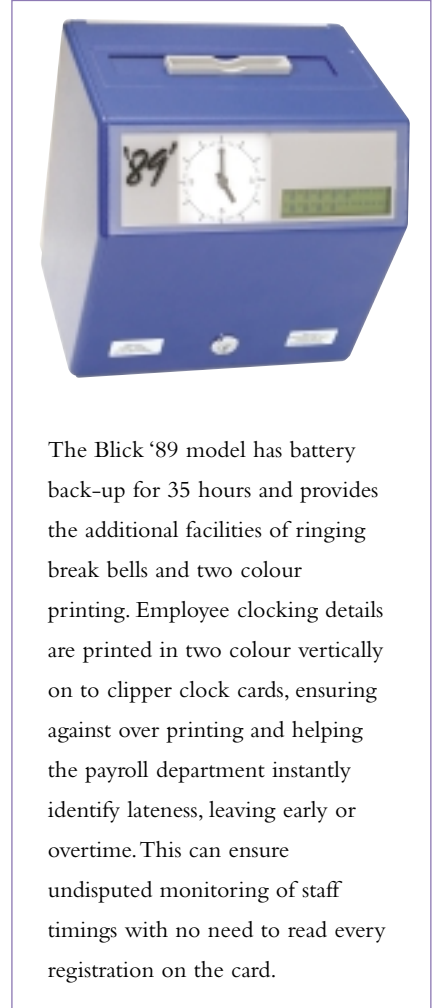

- Battery back-up for 72 hours
- Full operation during mains failure up to 800 registrations up to 72 hours of time keeping
- Job costing facility
- Uses 6000 series cards
- Consecutive clockings (punches hole to prevent over clockings)
- Imprint day, hour, minute in 24 hour mode
- Can be programmed for GMT/ BST
- Either stand alone or impulse mode (1 min pola/series) controlled from master clock

Specifications

- **Power requirement:**
240vac 50hz from unswitched fuse spur
- **Dimensions:**
Height: 267mm
Width: 267mm
Depth: 230mm
- **Weight:**
7.8kg (approx)

Employee clocking details are printed vertically on to clipper clock cards, ensuring undisputed monitoring of staff timings. Clockings can be recorded against specific jobs to assist manual job costing calculations by recording the start and finish times of individuals against designated tasks.

Currently utilised within factories, garages and repair shops. The Blick 86 & 89 Time Recorders are suitable for any environment where simple job costing is required to assist your man hour planning and improve reporting procedures.
